

# Lecture series

## NEW DEVELOPMENTS IN STATISTICS

### Spring semester 2023/24

The lectures are scheduled on Mondays and Thursdays from 17.15 till 19.45 for most of the weeks and an intensive week from 15 till 19 April. The lectures will be conducted in lecture **room FDV-19** (with a few exceptions) at FDV (Faculty of Social Sciences, Kardeljeva ploščad 5, Ljubljana). In terms of starting time, the first lecture is an exception, as it will start at 16:30 due to introduction section.

If "**ZOOM**" is written next to the title, the lecture is only over Zoom (and not also in person). For more information contact [Aleš Žiberna](mailto:Aleš.Žiberna@fdv.uni-lj.si).

	Date	Presenter	Title	
	19.02.2024	Aleš Žiberna	Introduction (starting at 16:30)	
1	19.02.2024	Kristina Stojmenova	How to write a paper that will be accepted for publishing	
2	22.02.2024	Vladimir Batagelj	Data visualization	
3	26.02.2024	Andrej Blejec	A glimpse into the history of statistics	<b>ZOOM</b>
4	29.02.2024	Janez Stare	Event history analysis I	
5	4.03.2024	Maja Pohar Perme	Event history analysis II	
6	7.03.2024	Nada Lavrač	Data mining	
7	14.03.2024	Andrej Mrvar	Network analysis	
8	18.03.2024	Irena Ograjenšek	Challenges of conceptualisation, operationalization and measurement in economics and business	
9	21.03.2024	Mojca Bavdaž	Challenges of data collection in official statistics	
10	25.03.2024	Gregor Gorjanc	Bayesian approach to statistics	<b>ZOOM</b>
11	28.03.2024	Anuška Ferligoj	Clustering of attribute and/or relational data	
12	4.04.2024	Tamas Rudas	Categorical data analysis	
<b>13</b>	<b>8.04.2024</b>	<b>Damijana Kastelec</b>	<b>Statistical modelling of spatial processes—</b>	<b>MOVED to 23.5.</b>
14	11.04.2024	Michael Bosnjak	Meta-Analysis with R: First steps	
15	15.04.2024	Rok Blagus	Modelling outcomes in medicine	
16	16.04.2024	Gregor Dolinar	Reliability and life testing	<b>ROOM FDV-14</b>
17	17.04.2024	Gregor Sočan	Statistical aspects of measurement in social and behavioral sciences	
18	18.04.2024	Simona Korenjak Černe	Clustering in symbolic data analysis	
19	19.04.2024	Aleš Žiberna	Simulation studies in statistics	
20	22.04.2024	Lara Lusa	Statistical methods for high-dimensional data	
<b>21</b>	<b>09.05.2024</b>	<b>Katja Lozar Manfreda</b>	<b>Data quality in web surveys</b>	<b>MOVED to 27.5.</b>
22	13.05.2024	Mihael Perman	Sufficiency	
23	16.05.2024	Herwig Friedl	Generalized linear models	
24	20.05.2024	Blaž Zupan	Recommender systems	
<b>13</b>	23.05.2024	Damijana Kastelec	Statistical modelling of spatial processes	
<b>21</b>	27.05.2024	Katja Lozar Manfreda	Data quality in web surveys
