3. Raziskovalno področje (*Research field*):

Sistematična teologija

4. Opis raziskovalnega dela (*Research work description*):

Vključuje morebitne dodatne pogoje, ki jih mora izpolnjevati kandidat/ka za mladega raziskovalca/ko, ki niso navedeni v razpisu za mlade raziskovalce (*It includes any additional conditions that the candidate for a young researcher must meet, which are not listed in the call to tender for young researchers.*).

**Slov.:** Raziskovalno mesto je razpisano v okviru raziskovalnega programa ARIS P6-0262 »Vrednote v judovsko-krščanskih virih in tradiciji ter možnosti dialoga«, ki se umešča v evropsko raziskovalno področje SH5: Texts and Concepts. Raziskovanje poteka na področjih bibličnih študij, patristike, zgodovine Cerkve, liturgike, dogmatike, cerkvenega prava in drugih disciplin, ob odprtosti za interdisciplinarne pristope.

Poseben poudarek razpisanega mesta je na sistematični teologiji, zlasti na teološki antropologiji in vprašanju teologije stvarjenja. Zaradi izzivov, ki jih teološki refleksiji postavljajo sodobna znanost, tehnološki razvoj ter okoljska in podnebna kriza, se vprašanje stvarjenja in stvarstva ponovno postavlja v ospredje tudi znotraj dogmatičnega diskurza. Predlagani raziskovalni projekt bo na podlagi sistematičnih analiz teoloških pristopov k vprašanju stvarjenja proučeval ključne interpretacije razmerja med Bogom, človekom in materialnim svetom ter povezoval klasično teologijo stvarjenja z izzivi, s katerimi se danes srečujejo posameznik, družba in svet kot celota. Projekt je odprt za interdisciplinarne pristope na presečišču teologije, filozofije, religiologije ali okoljskih ved.

Izbrani kandidat oziroma kandidatka bo ob mentorski podpori razvijal(a) doktorski raziskovalni projekt ter se aktivno vključil(a) v delo programske skupine. Sodeloval(a) bo pri skupnih raziskovalnih dejavnostih, pripravi znanstvenih objav in organizaciji znanstvenih ter strokovnih srečanj.

K prijavi so vabljeni kandidati in kandidatke z zaključenim magistrskim študijem (2. bolonjska stopnja) ali tisti, ki ga bodo predvidoma zaključili do 15.09.2026, s področja teologije ali sorodnih področij humanistike in družboslovja (filozofije, religiologije ali drugih sorodnih področij), če je njihov raziskovalni interes vsebinsko povezan z raziskovalnim okvirom programa ARIS P6-0262.

Razpis ponuja možnost oblikovanja samostojne raziskovalne poti v okviru uveljavljene raziskovalne skupine, ki sistematično razvija dialog med judovsko-krščansko tradicijo, sodobno humanistiko in aktualnimi družbenimi vprašanji.

**Eng.:** The research position is announced within the framework of the ARIS research programme P6-0262, "Values in Jewish-Christian Sources and Tradition and the Possibilities of Dialogue", which is situated within the European research area SH5: Texts and Concepts. The program conducts research in the fields of Biblical studies, Patristics, Church history, liturgy, dogmatics, canon law, and related disciplines, while remaining open to interdisciplinary approaches.

The position places particular emphasis on systematic theology, especially theological anthropology and the theology of creation. Considering the challenges posed to theological reflection by contemporary science, technological development, and the environmental and climate crisis, the question of creation has once again come to the forefront, including within dogmatic discourse. The proposed research project will, through systematic analyses of theological approaches to creation, examine key interpretations of the relationship among God, the human person, and the material world, and seek to connect the classical theology of creation with the challenges faced today by individuals, society, and the world.

The project is open to interdisciplinary approaches at the intersection of theology, philosophy, religious studies, or environmental studies.

The selected candidate will, under mentorship, develop a doctoral research project and actively participate in the research group's work. The candidate will contribute to joint research activities, the preparation of scholarly publications, and the organization of academic and professional events.

Applications are invited from candidates holding a completed Master's degree (second-cycle/Bologna level) or those who are expected to complete it by 15 September 2026 in theology or in related fields within the humanities and social sciences (such as philosophy, religious studies, or other related disciplines), provided that their research interests align with the research framework of the ARIS programme P6-0262.

The call offers the opportunity to develop an independent research path within an established research group that systematically fosters dialogue between the Jewish-Christian tradition, contemporary humanities scholarship, and current societal issues.

5. Priloge, ki jih je treba priložiti ob prijavi (*Documents required to be submitted with the application*):

**potrdilo o doseženi izobrazbi (*proof of completed education*)**
