

Opis raziskovalnega dela (Research work description)

1. Članica UL (UL member):

Univerza v Ljubljani, Fakulteta za arhitekturo / University of Ljubljana, Faculty of Architecture

2. Ime, priimek in elektronski naslov mentorja/ice (Mentor's name, surname and email):

Prof. dr. Petra Čeferin, petra.ceferin@fa.uni-lj.si

3. Raziskovalno področje (Research field):

5.12 – Arhitektura in oblikovanje / 5.12 – Architecture and Design

4. Opis raziskovalnega dela (Research work description):

Vključuje morebitne dodatne pogoje, ki jih mora izpolnjevati kandidat/ka za mladega raziskovalca/ko, ki niso navedeni v razpisu za mlade raziskovalce (It includes any additional conditions that the candidate for a young researcher must meet, which are not listed in the call to tender for young researchers.).

Mlada raziskovalka/raziskovalec (MR) bo vključen/a v delo raziskovalnega programa UL FA *Trajnostno oblikovanje kvalitetnega bivalnega okolja* (P5-0068) in deloval/a v okviru Katedre za zgodovino, teorijo in prenovo na UL FA. S svojim delom se bo vključil/a v raziskavo zmožnosti in omejitev sodobne arhitekture (in njenega odnosa do mesta) v razmerju do situacije, v kateri deluje in za katero so značilne številne družbene in okoljske krize. Osnovno izhodišče raziskave, v katero se bo vključil/a MR, je zaris možnosti in potencialov arhitekture kot prakse, ki v odnosu do svoje situacije ne deluje preprosto kot takšno ali drugačno orodje (za krepitev danega družbeno-političnega in ekonomskega reda ali pa za reševanje kriz, ki jih ta red proizvaja), pač pa se vzpostavlja in uveljavlja kot praksa, ki v svoji situaciji razmišlja in deluje samostojno. V okviru te raziskave bo MR oblikoval/a svoj lastni raziskovalni projekt, ki ga bo razvil/a v obliki doktorske disertacije. V času usposabljanja bo MR svoja spoznanja predstavljal/a na znanstvenih konferencah in objavljaj/a v obliki znanstvenih člankov. Sodeloval/a bo pri organizaciji znanstvenih konferenc, sestankov in drugih dogodkov na UL FA, kot tudi prispeval/a k pedagoškemu delu. MR mora odlično obvladati pisno in ustno izražanje v slovenščini, in imeti dobro znanje angleščine. Zahteva se tudi dobro poznavanje sodobne projektantske in teoretske prakse arhitekture.

The Young Researcher (MR) will take part in the work of the research program UL FA *Sustainable Planning for the Quality Living Space* (P5-0068) and will work within the Department of History, Theory and Renovation UL FA. With his/her work s/he will contribute to research that focuses on the potentials and limitations of contemporary architecture (and its relation to the city) in relation to our contemporary situation characterised by various social and environmental crises. The basic starting point of the research, in which the MR will engage, consists in examining the possibilities and potentials of architecture as a practice that in its situation does not simply operate as some kind of tool (either a tool for enhancing the given socio-political and economic order or a tool for solving the crises produced by this order); rather, it is a practice that responds to its given situation by thinking and acting independently. Within this research framework the MR will develop his/her own research project, and conclude it in the form of a doctoral dissertation. During the training the MR will present his/her findings

at scientific conferences and publish scientific articles. S/he will also take part in organising scientific conferences, meetings, and other events at UL FA, and contribute to pedagogical work. S/he is required to have professional-level writing and verbal skills in Slovene and a good working knowledge of English. S/he is also required to have good knowledge of contemporary design and theoretical practice of architecture.

5. Priloge, ki jih kandidat priloži k prijavi (*Documents that the candidate submits with the application*):
