DETERMINING THE OVERALL GRADE IN THE LAST TWO YEARS

The grades from the penultimate and final years of secondary school are used. If the overall grades of the last two years are not stated, the average of all listed grades in the individual year will be used in determining the overall grade for an individual year.

DETERMINING GRADES IN THE SCHOOL LEAVING CERTIFICATE

If in the process of recognition the school leaving certificate is treated as the final exam, which was taken in Slovenia up until 1 June 1995:

- overall grades are determined by adding together the grades for individual subjects (the highest number of points for four subjects is 20, or 25 for five subjects – 100 standardised points, and the lowest is 8 or for five subjects 10 points – 40 standardised points);
- if the school leaving certificate gives no grades, the performance in the final exam is taken to be the overall grade from the last two years of secondary school; the highest number of points is 10 – 100 standardised points, and the lowest 4 – 40 standardised points.
