COVID -19 MEASURES

In view of the current situation and in accordance with the proposal of the COVID-19 Coordination Team at the University of Ljubljana we are taking following measures:

- We suggest that UL members cancel lectures in large classrooms where 100 or more people can gather (for at least 14 days) and replace them by other forms of lectures.
- We propose that UL members also replace other forms of lectures in a manner that can be performed by distance learning.
- We do not recommend visits to the infected areas.
- We do not recommend visits from the infected areas.
- We are cancelling all meetings, where more people gather and are in a close contact and these meetings are not strictly necessary for the day-to-day running of the UL (congresses, formal academies, graduation ceremonies, sports education, other public events, etc.).
- Due to the fact that some institutions have banned students to enter their premises, we will replace this form of teaching in agreement with the institutions. If this is not possible, UL members may where appropriate recognize them as being carried out due to a state of emergency.

We ask you to take the appropriate steps and inform the staff and students accordingly.

Prof. Dr. Igor Papič
Rector
