The Call for Enrolment into Doctoral Study Programmes of the University of Ljubljana for the 2016/2017 Academic Year

The University of Ljubljana calls for enrolment into 20 doctoral study programmes. Besides the general section of the call which we have published in the introduction, listed next to each doctoral study programme are the members that carry out the programme and the deadlines for applying to the study programme. We would also like to emphasise that the candidates who intend to enrol into the doctoral study programmes according to the criteria for the transfer to higher years must also apply before the prescribed deadline.

GENERAL SECTION OF THE CALL FOR ENROLMENT

a) Application for Enrolment

The candidates must submit their application for enrolment into the doctoral study programmes of the University of Ljubljana online, namely via the eVŠ online portal which is accessible via the following eVŠ address: portal.evs.gov.si/prijava. Detailed instructions for filling out the form are also available on the above website.

The candidate submits their application for enrolment with an electronic form at the eVŠ online portal http://portal.evs.gov.si/prijava/. Each candidate can submit several applications for different study programmes, if they are applying:

1) **With a verified digital certificate**; a printed form should not be sent via mail, the application for signing into eVŠ should be submitted before the end of the application period. During this period, they should send to the address of the faculty member which has made the call for enrolment via registered mail all the attachments that are required in the Call of Enrolment (the attachments must state the reference to the number of the application for enrolment and the study programme for which the candidate is applying). The address for sending the attachments is published in the call for enrolment of each individual doctoral study programme.
2) **Without a verified digital certificate** (with a user name and password); the form for applying for enrolment should be sent electronically to eVŠ, printed out, signed, and sent by the end of the application period together with the attachments required by the call for enrolment via registered mail to the member that has made the call for enrolment or to the address published in the call for enrolment of each individual doctoral study programme.

An application is **timely** if:

1) It was **filled out** and **submitted with electronic signature** to the eVŠ by the end of the application period; or
2) It was **filled out in the eVŠ, printed out** with the same text as the text in the last submitted eVŠ form, **signed, and sent via registered mail** to the member that has made the call for enrolment by the end of the application period.

Technical assistance for questions regarding filling out the electronic application: eVŠ support at the Ministry of Education, Science and Sport, email: evs-prijava.mizs@gov.si, phone: 01 478 46 59 (during the application periods, during working days between 9:00 and 16:00). **Technical assistance for issues with the digital certificate and electronic**

signatures: SIGEN-CA support, email: podpora-ca@gov.si, phone: 01 478 85 90 (working days between 9:00 and 16:00).

For any content-related questions in regard to the Call for Enrolment, the candidates can contact the competent Students office or the contacts published in each individual call for enrolment into the doctoral programme.

Eligible to apply are all candidates who want to study at the doctoral study programmes of the University of Ljubljana, regardless of whether at the time of submitting the application they have already graduated or not. Graduation is not a condition to apply, but is a condition to enrol into the study programme. In this case, the candidates should submit the supporting documents about completing their studies and the certificate of the average grade before the expiration of the deadline determined by the member.

Regardless of the method of application, the candidate must submit the attachments to the application before the deadline, via registered mail or, in accordance with the call for enrolment, deliver them in person to the member that is carrying out the study programme to which the candidate has applied. The address for sending the applications is published in the call for enrolment of each individual doctoral study programme.

b) Application Deadlines

The **application deadlines** are different for every study programme and are specified in the call for enrolment for each doctoral study programme separately. The candidates can obtain detailed explanations of the enrolment conditions (the relevance of previous education and other conditions) and tuition fees from the higher education institutions of the University of Ljubljana that are organising the doctoral study programmes.

We especially call attention to the fact that the candidates must carry out any prescribed additional obligations (in accordance with the conditions for enrolment that are published next to the call for enrolment for the doctoral study programme) before enrolling into the study programme.

c) Applications in Accordance with the Transfer Criteria

In accordance with the University of Ljubljana Statute, candidates who in accordance with the study programme meet the conditions for enrolling to a higher year can transfer to higher years of doctoral study programmes in accordance with the transfer criteria for transferring between programmes.

The number of open positions according to the criteria for transfer into the second year is limited with the number of enrolled students in the first year in the 2015/2016 academic year; the number of open positions according to the criteria for transfer into the third year is limited with the number of enrolled students in the second year in the 2015/2016 academic year.

The candidates can find the information about the conditions and enrolment procedures according to the transfer criteria at individual members that organise doctoral study programmes. Contacts are listed in the text of the calls for enrolment of the individual study programme. Information on criteria for the transfer between programmes are a part of study programmes that are published in full or in the form of proceedings at the websites of the members of the UL or on the website of the UL.

It is also obligatory that the candidates who intend to enrol into the doctoral study programmes according to the criteria for the transfer to higher years apply via the eVŠ online portal.

d) Enrolment Deadlines

In accordance with the Rules on the Call for Enrolment and the Enrolment in Higher Education, the students in the 2016/2017 academic years ***enrol*** into doctoral study programmes by ***30 September 2016*** at the latest based; however on clear grounds, the decision on which is made by the competent body of the higher education institution, they can enrol by 30 October, 2016 at the latest.

Exact dates for the enrolment, shall be published by the members of the University of Ljubljana in which candidates enrol on their websites or shall inform the candidates directly.

e) Tuition Fees, Price Lists for Studies

Tuition fees and other study expenses are published in the Services Price List for Students .

f) Information Days

The information days for enrolling in doctoral studies at the University of Ljubljana shall be held at the university's members that organise the study programmes. The dates of the information days shall be published at the website of the University of Ljubljana or at individual members.

g) Information for Foreigners

If they meet the general conditions, foreigners (candidates who are not citizens from Member States of the EU) or Slovenians without Slovenian citizenship shall enrol in accordance with the provisions of the Rules on the Call for Enrolment and the Enrolment in Higher Education and the Rules on Tuition Fees and Accommodation in Students' Dormitories for Slovene Nationals without Slovene Citizenship and Foreigners in the Republic of Slovenia.

Candidates with foreign qualifications who wish to study in the Republic of Slovenia, providing they have not obtained a recognition decision on the qualification in Slovenia before 21st of January 2005 or for academic year 2016/2017 already, are obliged to acquire a decision on the recognition of the foreign education. The recognition procedure is a part of the enrolment procedure. The candidate submits the recognition application together with the study enrolment application (on the online eVŠ portal).
Information on the procedures for recognising the education and forms and instructions are available at the website:
