

1. Raziskovalna organizacija (*Research organisation*):

Univerza v Ljubljani, *Filozofska fakulteta*

2. Ime in priimek mentorja (*Name and surname of a mentor*):

Matej Ogrin

3. Področje znanosti iz šifranta ARRS (*Primary research field*):

Regionalna geografija, družbena geografija

4. Kontaktni e-naslov mentorja (*Contact of a mentor*):

matej.ogrin@ff.uni-lj.si

5. Kratek opis programa usposabljanja (*Short description of the program*):

SLO

Kandidat bo usmeril svojo raziskavo na področje okoljske in družbene geografije. V luči trajnostnega regionalnega razvoja Slovenije se bo osredotočil na ugotavljanje geografskih vidikov medsebojnih vplivov ene (ali več) izbranih družbenih dejavnosti na fizične in/ali družbene sestavine okolja v kontekstu sodobnih družbenih in okoljskih izzivov, kot so na primer globalizacija, podnebne spremembe s procesi prilagajanja in blaženja podnebnim spremembam, uvajanje novih tehnologij, vse večji pritiski na obnovljive ter neobnovljive naravne vire, preseganje ekosistemskih nosilnih sposobnosti, motorizacija, naraščajoče potrebe po mobilnosti, zmanjšanje biodiverzitete ipd. V kontekstu trajnostnega razvoja ne bo izpostavil le osnovnega vidika, kot so socialni, okoljski in ekonomski vidik izbrane dejavnosti, pač pa bo svoje raziskovanje usmeril tudi v ugotavljanje prožnosti prostora kot razvojnega potenciala.

Kandidat bo vključen v raziskovalno delo programske skupine Oddelka za geografijo Filozofske fakultete Univerze v Ljubljani z naslovom Trajnostni regionalni program Slovenije ter v pedagoški proces Oddelka za geografijo z izvajanjem vaj v skladu s pravilnikom o mladem raziskovalcu. Prav tako bo aktivno spremljal ter se po potrebi vključeval tudi v ostale raziskovalne dejavnosti Oddelka za geografijo. Tekom usposabljanja bo poudarek tudi na multidisciplinarnem delu, povezovanju geografskih vidikov ter znanj z drugimi vedami ter spoznavanju raziskovalnih pristopov na drugih domačih in tujih geografskih ustanovah.

ANG

The candidate will focus his research on a field of environmental and social geography. On a field of sustainable regional development of Slovenia, he will focus on study mutual influences of one (or more) selected social activities on physical and / or social elements of environment in light of modern social and environmental challenges, such as: globalization, climate change, mitigation and adaptation to climate change, implementation of new technologies, increasing pressures on renewable and nonrenewable natural resources, exceeding ecosystem's carrying capacity, motorization, increasing mobility demand, decreasing of biodiversity, etc.

In context of sustainable development, the candidate will not outline only basic aspect of sustainability, which basis on social, economic and environmental pillar of selected activity, but will

also improve his work in researching of resilience of space as development potential. The candidate will also be involved in research program of research group at Department of Geography at Faculty of Arts University of Ljubljana named Sustainable regional development of Slovenia and will also participate in pedagogical process at the Department of Geography in accordance with young researcher policy. The candidate will also cooperate and will be, (if necessary) involved in other research activities at the Department of Geography. During his training his work will base on interdisciplinary work and on connecting geographical aspects with knowledge of other sciences and understanding of other research approaches in home and foreign geographical institutions.
