

PARTNER SEARCH FORM

TNF Partner: _____ Ref.: _____ Date: 15.01.2007
 Refers to Call: FP7-KBBE-2007-2-4-02

INFORMATION OF ORGANIZATION	
Name of organization	CHEMISTRY-BIOLOGY DEPARTMENT OF NORTH UNIVERSITY OF BAIIA MARE-ROMANIA
Main researchers and expertise (name, surname, academic degree)	<p>Anca Mihaly Cozmuta – chemist engineer, main expertise in: analysis of environment's pollutants, control and expertise of food</p> <p>Leonard Mihaly Cozmuta – chemist engineer, main expertise in: instrumental analysis, environment pollution</p> <p>Camelia Varga – chemist, main expertise in: biochemistry of food, analysis of environment's pollution</p> <p>Corina Dragos – veterinary doctor, expertise in quality and safety of food, food security strategies</p>
Organization type	Higher Education (including research centres)
Organization Size (employees)	>250
Short description of organization (main research activities)	<p>Chemistry-Biology Department provides higher education in the field of chemistry, biology, control and expertise of food quality, food technology.</p> <p>The research activities of the department's members are focused on:</p> <ul style="list-style-type: none"> - Environment's pollution (soil, water, air) - Control and expertise of food quality - Food technology <p>Research experience is gained both in national and international projects.</p>
PROJECT DETAILS	
Project type	LARGE COLLABORATIVE PROJECT
Call info (which call does the PS refer to?)	KBBE-2007-2-4-02: Detecting of contaminants in the food and feed chain
Topic	Fork to farm: Food (including seafood), health and well being
Title	Not finalized yet
Description (incl. budget outline)	<p>The aim of the project is to identify the specific contaminants of different stages (producing, processing, storage and market) of the basic feed chains:</p> <ul style="list-style-type: none"> - fresh vegetable and fruits - milk and dairy products - meat and meat products - bread and bakery products <p>Based on the study, recommendation for improve the quality and safety of the food will be presented.</p>

	<p>Also, aspects related to HACCP applied in the food industry will be considered.</p> <p>The budget for each partner will be established according with the performed tasks.</p>
Partners involved	<p>Untill now:</p> <ul style="list-style-type: none"> - Romania - Greece - Poland -Turkey
Target partner(s) (type, expertise required and role in the project)	<p>1. Research units (universities or research institutes) specialized in control and food quality/food technology: the tasks they should performed regard the studies of different contaminants in different stages of feed chains:</p> <ul style="list-style-type: none"> - milk and dairy products - meat and meat products - bread and bakery products <p>2. Small and medium Farms/Food Processing Plants: specialized in the feed chains:</p> <ul style="list-style-type: none"> - milk and dairy products - meat and meat products - bread and bakery products <p>where the research will be developed.</p>

CONTACT DETAILS			
Name, Surname:	MIHALY COZMUTA ANCA	Gender (M/F)	F
Address:	Chemistry –Biology Department of North University of Baia Mare, Victoriei Str. 76 A, Baia Mare, Romania
