EducationUSA je globalna mreža preko 450 svetovalnih centrov, ki jih podpira Oddelek za izobraževalne in kulturne zadeve (ECA) v okviru Ministrstva zunanjih zadev ZDA. ECA spodbuja medsebojno razumevanje med Združenimi državami Amerike in drugimi državami. EducationUSA centri aktivno predstavljajo visokošolsko izobraževanje v ZDA po celem svetu, pri čemer nudijo natančne, izčrpne, objektivne in pravočasne informacije o izobraževalnih priložnostih v ZDA, ter navodila usposobljenim posameznikom, kako najbolje izkoristiti te priložnosti. V centrih delujejo strokovni svetovalci, med katerimi je mnogo takih, ki so tudi sami študirali v ZDA ali/in so se udeležili posebnega programa o visokošolskem izobraževanju v ZDA in svetovalnem procesu. Preko EducationUSA centrov po svetu se vsako leto seznanijo s priložnostmi za študij v ZDA milijoni perspektivnih študentov.

EducationUSA is a global network of more than 450 advising centers supported by the Bureau of Educational and Cultural Affairs (ECA) at the U.S. Department of State. EducationUSA centers actively promote United States higher education around the world by offering accurate, comprehensive, objective and timely information about educational opportunities in the United States and guidance to qualified individuals on how best to access those opportunities. Centers are staffed by professional advisers, many of whom have first-hand experience having studied in the United States themselves, and/or having received State Department-approved training about United States higher education and the advising process. Each year millions of prospective students learn about U.S. study opportunities through EducationUSA centers.

Sklad je z delovanjem pričel 2001 kot Ad futura, Znanstveno izobraževalne fundacije Republike Slovenije, javnega sklada. Od leta 2002 dalje je sklad izvajal programe sofinanciranja in štipendiranja mednarodne mobilnosti študentov in raziskovalcev v Slovenijo in v tujino, ter svetovanja o priložnostih za izobraževanje v tujini. Konec leta 2006 se je preoblikoval v Javni sklad Republike Slovenije za razvoj kadrov in štipendije. Programi Ad futura se ohranjajo v posebnem oddelku, sklad pa izvaja tudi vrsto drugih programov, ki so jih doslej izvajale druge institucije, ter uvaja nove programe, med njimi Zoisove štipendije za nadarjene, kadrovske štipendije, nagrade za trajnostni razvoj družbe in druge. Sklad je tako centralna izvedbena institucija za štipendiranje in razvoj kadrov v Sloveniji.

The fund was established in 2001 as Ad futura, Science and Education Foundation of the Republic of Slovenia, Public Fund. Since 2002 it has been managing scholarship and grant programs for the international mobility of students and researchers from Slovenia abroad and from abroad to Slovenia, and advising on educational opportunities abroad. At the end of 2006 it became Slovene Human Resources Development and Scholarship fund. All Ad futura programs are now managed in an internal department, and the fund was given various other programs, that were previously managed by other institutions. Additionally new programs were introduced, including Zois Merit Scholarships, employer based scholarships, awards for contribution to the sustainable development of society and others. The Fund is now the central institution for scholarships and human resources development in Slovenia.
