

Provisions applying if the student does not complete successfully some educational components:

In order to retain the right to Erasmus+ financial support, the student is obliged to complete at least 20 ECTS credits in each semester as stated in the Learning Agreement for Studies. If the student receives during the exchange less than 20 ECTS credits, a written explanation, signed by student and Erasmus+ departmental coordinator, must be submitted. If the student has not completed all educational units from the Learning Agreement, the difference to complete the semester/year has to be carried out at the home institution in accordance with his/her study program. If the student does not complete all educational units of the Learning Agreement for studies, he/she enrolls to the next year under the same conditions as the students who were not on the exchange.
